EDUCATION

De La Salle University

Bachelor of Science in Computer Science, Major in Software Technology

Manila, Philippines

Sep 2024 – Jun 2028

SKILLS

Languages & Databases: Python, TypeScript, Java, Go, SQL, PostgreSQL, MySQL, MongoDB

AI & Data Science: PyTorch, Hugging Face Transformers, Scikit-learn, NLP, LLMs, Embeddings, Sentiment Analysis, Pandas, NumPy

Software Engineering: Next.js, React, ExpressJS, Tailwind CSS, REST APIs, System Design, Git, Docker

WORK EXPERIENCE

Undergraduate Researcher

Center for ICT for Development (CITE4D), De La Salle University

Manila, Philippines

Feb 2026 – Present

- Conduct research in **Natural Language Processing (NLP)**, developing **transformer-based models** for **sentiment analysis**, **emotion detection**, and **multilingual/code-switched text**.
- Analyze and model **10,000+ text samples**, contributing to **3 accepted conference papers**, including **2 oral presentations** at AILRIC 2026 and **1 accepted IEEE full paper**.

Lead Software Engineer, Frontend

La Salle Computer Society

Manila, Philippines

Aug 2024 – Present

- Led frontend engineering across **3+ teams**, managing **8 engineers**, defining development standards, and creating internal tooling such as **npx create-lscs-app** that reduced project setup time by **50%**.
- Architected scalable web applications using **Next.js** and **TypeScript**, driving frontend architecture decisions, code quality practices, and delivery of platforms serving **22,000+ students**.

PROJECTS

Pana (pana.tools) | TypeScript, NextJS, Express, System Design, Agile/Scrum

Oct 2025 – Jun 2026

- Directed the end-to-end development of a DLSU application directory by managing **3 developers** through Agile sprints, bridging core **system design** and **TypeScript** development to deliver a centralized directory featuring **20+ Lasallian app submissions**.

LEAP 2025 Registration Platform | Next.js, TypeScript, Tailwind CSS

Apr 2025 – Jun 2025

- Led the frontend development of a high-traffic registration platform using **TypeScript** serving **22,000+ DLSU students**, delivering a **scalable, secure, and mobile-first** enrollment experience under tight timelines.

PUBLICATIONS & CONFERENCE PRESENTATIONS

AILRIC 2026 (*Accepted for Oral Presentation*)

Aug 2026

- Chavez, M.B.**, Lee, H., Sadiarin Jr., E., & Gonda, R. *A Machine Proposed Human-Validated Taglish-English Parallel Corpus for E-Commerce Alignment Analysis*.
- Chavez, M.B.**, Lee, H., Sadiarin Jr., E., Gonda, R., & Park, J. *Audience Bias and Sentiment in Korean Cinema: A Cross-Cultural Text Mining Analysis*.

IEEE FMLDS 2026 (*Accepted Full Paper*)

Nov 2026

- Chavez, M.B.**, Lee, H., Sadiarin Jr., E., & Gonda, R. *The Dynamics of Cancel Culture: A Social Network and Sentiment Trajectory Analysis of Influencer Apology Videos in South Korea*.

AWARDS

Bluehacks 2025 (*2nd Place Winner*)

February 2025

- Contributed to Hackin Ka Nalang, the **second-place winning team** that developed Flare, an SOS mobile app supporting victims of natural disasters, focusing on typhoon response and emergency assistance.
